

From CLASSROOM to IT ROOM ... in an instant!!!

 BRET FORD

PRESENTING

VERSO

Multi-Purpose ICT Desks

Is space for your IT lessons limited?

Dedicated IT rooms can tie up vast areas to house computer hardware rendering them inappropriate for general lessons. The Bretford Verso desk solves this issue by concealing IT equipment within the furniture when not in use, leaving a clear, flexible work surface for general classroom activities.

The screen, keyboard, mouse and cables are all neatly housed inside the rising tower to allow for a simple and hassle free transformation.

Is security a key concern?

A dedicated IT room which displays all your computer equipment offers little theft prevention as well as leaving equipment susceptible to accidental damage and vandalism.

The Verso desk offers your school enhanced security with lockable lids and secure CPU towers. When not in use all your computer equipment is protected and out of sight.

THE BRETTFORD VERSO DESK

Incorporate computer equipment into every classroom to meet today's increasingly ICT focused curriculum, without losing any teaching space!

Key benefits:

- Pneumatic opening mechanism for instant transformation and minimal classroom disruption
- Verso offers a clear unobstructed working area with a large 435mmD work surface even when tower is raised (630mmD when closed)
- Rising tower suitable for housing up to 19" monitors along with the keyboard & mouse to neatly store all your computer equipment and prevent loss
- Locking lids and secure CPU cages help prevent theft, vandalism and accidental damage to your equipment – Non locking version also available
- Allow students access to USB, headphone & mic sockets whilst keeping the CPU securely locked away with the optional connecting hub panel
- Grommet holes and locking cable compartment to keep wires tidy and safe from tripping feet or probing fingers. Locking compartment also doubles as a storage area
- Supplied with grey frame and beech laminate top as standard

	Width mm	Depth mm	Height mm
Ultra	630	630	660/710/760
Tower/Music	800	630	660/710/760
	880	630	660/710/760
	1260	630	660/710/760
Music only	1400	630	660/710/760

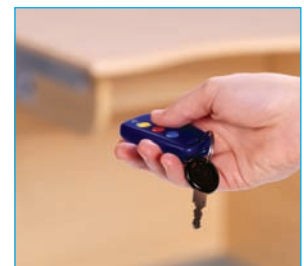

Rising tower holds up to 19" monitors

Large clear working surface even when tower is raised (curvature edge optional)
